The Honorable Rosa DeLauro  
Ranking Member  
Committee on Appropriations  
U.S. House of Representatives  
Washington, D. C. 20515

Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for the Township of Edgewater Park Stormwater Pump Station Project in Fiscal Year 2026. The entity to receive funding for this project is the Township of Edgewater Park, located at 400 Delanco Road, Edgewater Park, NJ 08010.

The funding would be used for the construction of a stormwater pump station with a backup generator to address chronic flooding at Silver Park West, protecting residents and property by safely discharging excess water without constant manual intervention.

This project is a valuable use of taxpayer funds as this would not only reduce safety and flooding concerns of Township residents, but it would also eliminate the requirement for Township staff to manually pump the basin during heavy rainfall events, allowing the staff to complete their other duties.

The project has a federal nexus because the funding provided is for purposes authorized under Section 306 of the Consolidated Farm and Rural Development Act, 7 U.S. Code section 1926(a)(2).

I certify that neither I nor my immediate family have any financial interest in this project.

Sincerely,
